

LOWE HARDWARE

ARCHITECTURAL & MARINE HARDWARE
HAND-CRAFTED IN MAINE

SINCE 1977

ABOUT LOWE HARDWARE

THE LOWE FAMILY HAS BEEN
DESIGNING AND MANUFACTURING
BEAUTIFULLY CRAFTED ARCHITECTURAL
AND MARINE HARDWARE ON THE COAST
OF MAINE FOR OVER 30 YEARS.

HUMBLE BEGINNINGS...INSPIRED
BY THE SEA.

Lowe Hardware founder William M. Lowe, a boat builder, yacht skipper, and machinist, first started producing durable hand-crafted yacht hardware out of his small barn in the coastal town of Owls Head, Maine. Designed to stand up to the rigorous demands of the sea, Lowe Hardware soon graced some of the worlds finest yachts.

 LOWE HARDWARE

“NO MATTER HOW ADVANCED THE TECHNOLOGY, WE STILL HONOR THE TRADITIONS PRACTICED IN OUR CRAFT.”

- ELLIOT LOWE

Today, Lowe Hardware serves the demand for top-quality customizable door & cabinet hardware for fine homes, yachts, and commercial projects around the world, working closely with architects and designers. Still based in Maine, the company has managed to include a state-of-the-art manufacturing facility where all products are designed, made, and hand-finished by a highly-skilled group of Maine artisans, designers, and craftspeople. Lowe Hardware also maintains a showroom in New York City where the company's line of catalog products and custom solutions can be found.

SUCCESS COMES WITH COMMITMENT.

With a strong commitment to quality, the Lowe family continues to take great pride in pursuing their craft on the coast of Maine, producing beautiful, durable, timeless hardware using both modern and time-tested traditions.
